

Ajdin Heldovac

Sighter

Bilateral Meetings

- Thursday 12:00-15:00

Description

Sighter is a startup company created after 6 years of hard work and research how the IT field can enrich other fields of the economy. With careful selection of the best people and with the support of partners with over 20 years of experience in tourism, we are placing our first service, Sighter Travel, on the market. Through day-to-day work and research, but also by participating in various IT and tourist conferences, we strive to enrich our knowledge and deliver the best experience to our partners.
